

IS YOUR ORGANIZATION PROPERLY PREPARED FOR A WORST-CASE SCENARIO?

It is almost impossible to pre-determine the next major violent event. Unless you are part of a government organization tasked with tracking and reducing crime, you may suddenly and unexpectedly find yourself in a dangerous situation that requires you

to react to save yourself or those around you. No type of organization is exempt from violence, nor the responsibility to protect their employees. I will teach you and your team how to be prepared and how to respond.

Adam Bryant

Adam is listed as an Enhanced Permit Certified Firearm Instructor with the Mississippi Department of Public Safety and Tennessee Department of Safety and Homeland Security. After carrying concealed and enjoying the shooting sport for years, Adam decided to teach others how to properly carry firearms and stay within the legal boundaries of local, state, and federal laws. Adam teaches multiple firearm classes, but specializes in active shooter responses for schools, businesses, and churches. He has multiple certifications through the NRA, USCCA, and ALiCE.

Bryant
FIREARM TRAINING AND CONSULTING

Shooting Range Safety

As a Range Safety Officer, I will ensure the range meets safety requirements and that participants enjoy practicing what they learn in the classroom. The fun that comes with shooting only happens when everyone practices safe firearm skills.

Enhanced Concealed Carry

I teach safe, proper, and appropriate ways for citizens like you to exercise your Second Amendment rights. I teach classes for individuals/families to obtain Instructor Certification status on their new or existing firearm permit.

Certified Instructor

Personal Protection
Concealed Carry
Home Defense
Active Shooter Response
Emergency First Aid

If your church, business, or organization is interested in scheduling a class or series of classes, please contact me today for available times and locations.
